SunBriteTV® All-Weather Outdoor LCD Television

Designed with a durable **All-weather Environmental Feature-Set**, SunBriteTV televisions are engineered for permanent outdoor installation:

- The extra bright 32-inch HD 1366 x 768 LCD screen is integrated into an all-weather exterior that protects the internal components from rain, dirt, insects and scratches.
- **Dual-fan Airflow System** keeps the unit cool and dry in temperatures up to 122 degrees F.
- **Internal Thermostatically-Controlled Heater** protects TV in temperatures as low as -24 degrees F.
- **Innovative Water-tight Cable Entry System** with pass-through design keeps cables dry and allows for easy hook-ups.
- **Anti-Reflective Window** reduces glare, increases contrast and protects the LCD screen.
- The Detachable Speaker Module, control buttons and remote control are also water- resistant.

The **Control Feature-Set** maximizes system integration and programming security:

- **RS232** and **Discrete IR** input connectors simplify control functions.
- The **Concealed IR Window** is located in the cable-entry compartment, thus protecting it from the elements.
- **Remote Control Lock-out** prevents unauthorized users from changing the programming.
- **Sleep Mode** automatically turns the TV to the Off mode when the signal is removed, and turns it back to On when the signal is restored.

Model 3220HD

Specifications

LCD Screen	31.5-inch diagonal TFT Active Matrix
Resolution	1366 x 768
Aspect Ratio	16:9
Contrast Ratio	3000:1
H/V Viewing Angle	178° by 178°
Response Time	6.5 milliseconds
