

Designed with a durable All-weather Environmental Feature-Set, SunBriteTV engineers their televisions for permanent outdoor installation:

- The extra bright 22-inch HD 1366 x 768 LCD screen is integrated into an all-weather exterior that protects the internal components from rain, dirt, insects and scratches.
- Dual-fan Airflow System keeps the unit cool and dry in temperatures up to 122 degrees F.
- Internal Thermostatically-Controlled Heater protects TV in temperatures as low as -24 degrees F.
- Innovative Water-tight Cable Entry System with pass-through design keeps cables dry and allows for easy hook-ups.
- Anti-Reflective Window reduces glare, increases contrast and protects the LCD screen.
- The detachable speaker module, control buttons and remote control are also water-resistant.
- Remote Control Lock-out prevents unauthorized users from changing the programming.
- Sleep Mode automatically turns the TV to the Off mode when the signal is removed, and turns it back to On when the signal is restored.
- RS232 and Discrete IR input connectors simplify control functions.

Models 2220HD

Specifications

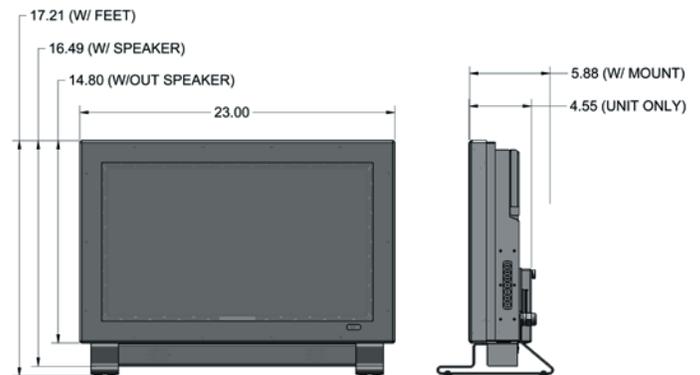

LCD Screen	22-inch diagonal TFT Active Matrix
Resolution	1366 x 768
Aspect Ratio	16:9
Contrast Ratio	2500:1
H/V Viewing Angle	176° by 176°
Response Time	6.5 milliseconds
TV Formats	1080i, 720p, 480i, 480p
Input Connectors:	
RF	Antenna/CATV (NTSC, ATSC, QAM)
HDMI	HDMI Input x 2
Video Composite	S-Video x1 and Composite Video x1, L/R Audio Inputs x1
